Karma Jimbaran

THE EXCLUSIVE KARMA Jimbaran offers the best in luxury, style and spaciousness that can be found in Bali. Situated next to one of the most renowned beaches on the island – Jimbaran Bay – guests will enjoy the ultimate tropical holiday.

Local skilled craftsmen were employed in the construction of this resort, as were indigenous natural products resulting in the creation of an authentic Balinese retreat. Plantation teak furniture, traditional figurines and one-off decorative antiques give a welcoming and peaceful ambience to the interiors at Karma Jimbaran.

There are 37 private Pool Villas in one, two, three and four-bedroom configurations as well as the Grand Residence. Each villa provides the utmost privacy with the Balinese-style garden walls that surround them.

Under the traditional Alang Alang roofs in each guestroom there are spacious lounge areas, fully equipped designer kitchens, DVD/CD surround sound systems, satellite television, wireless and broadband internet connections. Teak sun beds as well as the scents of Frangipani, Bougainvillea and Jasmine trees complement the private pools in each villa.

At Karma Jimbaran, as at other Karma Resorts, the Karma Concept involves enjoying the finest lifestyle during your stay. This includes stunning locations, accommodation, cuisine and facilities.

The Karma Concept

Dining at the resort is a treat for guests and a must for every visitor to Bali.

Internationally acclaimed chef Raymond Saja has joined Karma to execute Karma Resorts' key philosophies of choice and variety. Only the finest seasonal local produce and international ingredients are used to create unique dining experiences.

Di Mare Restaurant and Lounge is situated in the centre of the resort and has gained a reputation for serving the best dishes in Jimbaran, as well as Bali. The modern Mediterranean flavours of Di Mare are matched perfectly to the casual and relaxed atmosphere. The 24-hour In Villa Dining Service allows guests to

enjoy hearty meals at any time, day or night. Alternatively, the villa kitchens have everything guests require to cook an entire meal for the whole family. Ingredients can be ordered prior to arrival at the resort and the chefs will do all of the shopping.

For a special occasion the chefs can be invited into villas to cook guests a fabulous meal while waiters provide impeccable service. The team of chefs work with guests to plan the perfect menu, from a barbecue to a nine-course meal, which can then be enjoyed at the dining table, poolside under the stars or in the lounge pavilion.

At the Chakra Spa Villa guests can completely relax in the skilled hands of their therapist while having a massage in the Spa Villa, poolside or in the comfort of your own villa.

The spa menu features pure, natural oils and products in all of the treatments. These include the revitalising Samadhi, which includes an aromatic footbath, deep-tissue massage and a sea salt body scrub followed by a moisturising treatment as well as couples therapies, ideal for holidaying romantics.

There is an extensive variety of activities available to guests as many of the major attractions are located close by to the resort. In addition, private guest experiences can be arranged to suit individuals and their tastes. 'Sunset Bale Cocktails and Canapés' is one such experience recommended for those seeking a romantic event to remember. Guests will be driven in a private car to the dramatic cliffs of Uluwatu where a Bale and private waiter await

with a selection of canapés and cocktails to relish while watching the sunset. Or private helicopters can be chartered to see this amazing island from the air.

Every guest to stay at Karma Jimbaran is guaranteed a holiday to remember, filled with exciting meals, experiences and sights. 🌴
