Karma Resorts

Karma Resorts

...an unrivalled experience

Karma Resorts is both new and refreshing and aims to constantly evolve to provide a fusion of guest's individual needs and desires with lifestyle, elements of choice, space and value.

Karma Resorts is the brainchild of John Spence - the visionary, Chairman and Owner. John founded the concept from a gap he identified in the high end leisure resort market. Traveling as a couple, with his family or friends, John could never find a product that offered top end lifestyle accommodations combined with a seamless service experience from his arrival right through to his departure.

In a bid to fill this niche corner of the market, Karma Resorts is offering guest's luxurious and spacious pool villa accommodations that sit within a resort infrastructure to provide an experience that is extensive yet intimate.

Karma Jimbaran in Bali, Indonesia is the first operational Karma Resort. Guests can enjoy their surrounds in 1 to 4 bedroom pool villas. All villas comprise of spacious and luxurious living areas that opens up onto their courtyard garden with pool.

The villas master bedroom is a virtual indoor sanctuary, taking up the entire second floor of the villa. Located across from the pool on the ground floor, the second bedroom flows through an ensuite to a beautiful outdoor shower area.

The Ultimate Villa of Karma Jimbaran is the Grand Residence which boasts a 25 metre swimming pool, staff quarters, lounge pavilion, reading room, outdoor bathtubs and a view from the third story that sweeps over Jimbaran Bay, the south of Bali and takes in the beauty of the distant tower of Mount Agung.

At the core of the resort surrounding the central pool is 'di Mare' restaurant which serves Modern Mediterranean cuisine in a cool but chic atmosphere, di Mare has quickly become recognized as one of the leading restaurants in Bali and is a must for all to try.

All Karma Resort villas have fully self contained kitchens equipped with SMEG appliances which allow for cooking or for more of a 'no effort' element, choose an in-villa dining experience with one of their personal chefs or 24 hour room service.

Chakra Spa, in all resorts offers a haven of relaxation for all to experience and for those that don't wish to leave their villa for this, therapist will happily come to you for pool side massages and treatments.

Karma Samui - Koh Samui Island, Thailand, is nestled in a serene cove and rises gracefully from the blue seas and golden sands of a stunning tropical beach. Four minutes drive to the south one finds the bustle and excitement of the island's major shopping and entertainment center - Chaweng Beach; while the boutique international airport is conveniently placed only 15 minutes away.

The 36 pool villas are arranged in 5 terraces, maximising the sea views and creating a village-like atmosphere with quaint buggy paths serving as unobtrusive transport conduits. Elements of Thai and contemporary architecture merge to create the perfect harmony of East meets West. Rich Thai silks and handcrafted artworks adorn the interiors of the villas themselves, The restaurant and the reception and library areas, allowing a balanced and elegant flow from the interior to the exterior.

Karma Samui, is complete elegance and lifestyle on the tropical paradise of Koh Samui.

Other projects currently underway for the Karma Resorts Group are Karma Kandara - Bali, Indonesia, Karma Margaret River - Western Australia, and the Seychelles. At each Resort, a comprehensive menu of guest experiences will be available both for internal and external activities covering cultural, romantic, sporting and family needs.
